## **USUA FLIGHT SCHOOL MEMBERSHIP REGISTRY**

For many years USUA (and other ultralight organizations) have been faced with the dilemma of providing accurate instructor listings for prospective students. Many instructors on the roster (for a variety of reasons) are unable to provide actual flight instruction for those looking to obtain such. In light of that situation, USUA has decided to implement a new member type: The Flight School Membership. This will allow serious instructors (of both ultralights and Light Sport Aircraft) an opportunity to showcase their operations year-round on the USUA website ([www.usua.org](http://www.usua.org)) This valuable exposure through the highly visible media of Internet and print, will provide an excellent platform for the schools, and generate additional revenue for them at this critical time in Sport Aviation history.

USUA has always been the leader in Ultralight Flight Instruction, and thousands of members and prospective students visit [usua.org](http://usua.org) each week looking for information and services that will provide the level of safety and training that USUA is famous for. By listing only the serious schools and operations in this format, an even higher level of safety and performance can be achieved.

The program will allow the schools to choose between two levels of membership. Each has been designed to fit the needs and budgets of any size operation. (A cup of coffee at Starbucks can cost more than a weeks worth of Flight School membership...)

Level 1 will provide a basic listing of the facility, including:

- \* Contact Info (Name, Address, Phone)
- \* Type & Category/Class Of Training Offered (Ultralight/LSA, Airplane/Weightshift/PPC/PPG, Land/Sea)
- \* 12 Month Listing on the USUA website (24/7)

Level 2 will provide you with a listing that includes:

- \* All Advantages Of Level 1 Membership
- \* Web Links To Your Website & Email
- \* Detailed Info Regarding The Types/Availability Of Vehicles & Aircraft Your School Uses For Flight Instruction And Examinations.
- \* Detailed Information Regarding Times, Dates Etc. Of Your Schools Operation.
- \* The Availability Of Testing Facilities, Examiners Etc. At & Near Your School.
- \* The Type/Make/Model Of Vehicles/Aircraft Sold & Serviced At Your Facility.
- \* A Full Color Photo Of Your Facility
- \* Up To 100 Words Of Descriptive Text Detailing Additional Services Offered By The School.

### **How Much Does It Cost?**

Careful consideration of the costs involved in operating this program has resulted in the following related charges. Respect and appreciation for the long time commitment that USUA BFIs have provided to the community is reflected in the pricing, and individual USUA members receive discounted rates as well. (Additionally, this type of trade membership COULD be tax deductible for commercial operations...)

PRICING CHART FOLLOWS

## **USUA Flight School Membership Fee Structure**
